

Introducing the Fidelity National Title

Transfer Tax Online Calculator

At Fidelity National Title Company, we understand you need fast access to a lot of different data when closing your real estate transactions. To help, we have created our newest calculator website to calculate the transfer tax.

Simply enter the county, city and price and click compute. The transfer tax site will then provide you with the county transfer tax amount and city tax, if applicable. You can also enter the transfer tax amount and the site will calculate the sales price.
